Introductory Notes to the Phrased Notation System

The Phrased Notation System is a modified form of music notation which aims to guide non-specialist choirs towards historically informed performance of Renaissance polyphony. There are many elements to be considered when transcribing polyphonic Renaissance material from the original part books. An explanation of the approach taken to each of these elements is provided below.

Accidentals - Accidentals which appear in the original publication are retained in the normal place before the note to which they apply, in accordance with modern convention. Courtesy accidentals are provided as appropriate and are shown in brackets over the note to which they apply. Some of these accidentals are adjusted on foot of a preceding raised pitch. Others occur in accordance with *Musica Ficta*.

Accompaniment - Though a keyboard reduction is provided it is not suggested that this material be accompanied in performance. It is provided as an aid to rehearsal only.

Bar Lines - In general, bar lines were not used in the original part books. They are therefore not included in the choral parts here. They are, however, included within the piano reduction staves. The absence of bar lines in the choral parts facilitates a linear flow to the line without the vertical 'chopping' inflicted by bar lines, whether in their standard place or between the staves as in *Mensurstrich*.

Dynamics - The music is presented without overt dynamic marks. No such marks exist in the original. However, dynamic variation should be inferred from a) the meaning of the text b) the nature of the writing (inclusion or exclusion of voice parts) or c) the rise and fall of the musical line.

Grouping of Notes - In an effort to ensure clear alignment and an easy analysis of the geography of each line vis-a-vis the other choral lines, notes are grouped according to beats rather than the modern vocal notation convention of syllabic separation. Where longer duration notes cross a notional bar line these notes are divided into appropriate smaller durations and joined by a tie. In this way a clear alignment of beats can easily be seen without the actual use of bar lines.

Metronome Marks - Metronome marks (M.M.) are provided. These M.M. values should be seen as indicators of an appropriate tempo and not necessarily slavishly followed. Where a change of meter is involved the new M.M. establishes a relationship between the two meters. This relationship should be preserved even where the initial M.M mark is not observed due to performance demands or personal interpretation.

Phrase Marks - Phrase marks are included as an essential part of the Phrased Notation System. The phrase marks indicate the musical phrases as appropriate to each line individually. The presence of these phrase marks highlight the polyphonic nature of the writing thus creating an awareness within the mind of the singer. The phrase marks are also indicative of appropriate breath points.

Rehearsal Numbers - Rehearsal numbers are provided on the top staff throughout. These rehearsal numbers coincide with the bar numbers as shown on the piano reduction score.

Rests – The standard pulse throughout is a minim. Extended rests are therefore shown as multiple minim rests. A count (3,5,7 etc.) is included as an aid where the number of minim rests exceeds 3.

Text Presentation - The text is presented with modern capitalisation, spelling and punctuation adjustments as laid out in the *Liber Usualis*.

Text Pronunciation - As an aid to correct pronunciation, stressed syllables are presented in Bold type face. Observation of these stressed syllables will promote clarity regarding the micro meters contained within the music. The pronunciation style adopted is that of Ecclesiastical Latin.

Time Signatures - Time signatures are not used as these are inappropriate for use without associated bar lines. A digit 2 or 3 is inserted to indicate a duple or triple meter as appropriate.

Translation - A literal translation is provided under each word as an aid to understanding not only the text but also the relationship between the text and the music. Such an understanding plays a vital role in the subtle dynamic variations within the composition. It also plays a significant role in properly realising the meaning of the text and any word painting created by the composer. For example, the words *fontes aquarum* (streams of water) may be set to music in extended phrases and flowing scale passages.

To the Conductor - Conductors should note that unlike standard modern notation the tactus or beat should in general indicate a minim in the duple sections.

It should also be noted that the style of conducting should not be a didactic, pointed beat but rather a gentler less articulated one. Such a change will promote fewer indications of 'first beat in the bar' type accents and encourage a more fluid line, as is appropriate. Adopting a standard modern beat pattern will reinforce in singers their inclination to sing in the manner of barred music and should therefore be avoided.

Dr Kevin O'Carroll

Exaudi, Deus, orationem meam,
Et ne despexeris deprecationem meam:
Intende in me, et exaudi me.

Hear, O God, my prayer,
And do not despise my supplication:
Attend to me and hear me.

Exaudi, Deus

The musical score is arranged in five systems. The first four systems are for vocal parts: Soprano (S), Alto (A), Tenor (T), and Bass (B). The fifth system is for the Piano accompaniment. Each vocal part has a treble clef and a key signature of one sharp (F#). The Soprano part begins with a melodic line starting on G4, moving to A4, B4, and C5, with a fermata over the final note. The Alto part starts on G3, moving to A3, B3, and C4. The Tenor part starts on G2, moving to A2, B2, and C3. The Bass part starts on G1, moving to A1, B1, and C2. The piano accompaniment features a steady bass line in the left hand and a more active treble line in the right hand, mirroring the vocal lines. Measure numbers 36, 37, and 38 are indicated above the vocal staves.

S
